Kerala, India

Summary

Mechanical Engineering undergraduate at KTU with a strong interdisciplinary background in embedded systems, IoT, full-stack web development, and AI-integrated applications. Co-founder of an MSME-registered MedTech startup (Arogya Smart Health Technologies) focused on patent-oriented healthcare innovation. Academic Intern at Kerala Startup Mission, supporting technology commercialization and innovation programs. Passionate about bridging mechanical design with software and hardware to build impactful, real-world solutions.

Education

UKF College of Engineering and Technology

B.Tech in Mechanical Engineering | APJ Abdul Kalam Technological University

Kerala, India

2024 – 2028

- CGPA: **8.4 / 10**

SNT Higher Secondary School, Chathannoor

Higher Secondary – Biology Science

2022 – 2024

- Score: **92%**

GVHSS Chathannoor

SSLC – Secondary School Leaving Certificate

2022

- Result: **9 A+ and 1 A**

Experience

Kerala Startup Mission (KSUM)

Academic Intern – Research Innovation Network Kerala (RINK)

Kerala, India

2026 – Present

- Supported technology commercialization initiatives under RINK, coordinating IP scouting and technology mapping.
- Coordinated innovation programs including MathWorks workshops, Huddle Global, IEDC Summit, and Startup Summit.
- Built the official RINK Technology Transfer Portal, integrating 200+ technologies from 20+ research institutions.
- Contributed to innovation reports and technology transfer initiatives with research labs and startups.

Arogya Smart Health Technologies

Co-Founder & Chief Research and Development Officer

Kerala, India

2025 – Present

- Co-founded an MSME-registered MedTech startup focused on embedded healthcare devices and patent-oriented R&D.
- Led hardware architecture, prototype development, and technology commercialization strategy.
- Designed and developed IoT-based medical devices targeting preventive and assistive healthcare.

IEDC – UKF College of Engineering and Technology

IPR & Research Lead

2025 – Present

- Conducted intellectual property awareness sessions and supported patent documentation for student innovations.
- Organized innovation programs and mentored student innovators in ideation and IP filing.

Freelance LinkedIn Trainer & Personal Branding Coach

Startup Bootcamp Trainer | 10,000+ LinkedIn Followers

Kerala, India

2025 – Present

- Built a LinkedIn audience of **10,000+ followers** by sharing content on startup ecosystems, engineering innovation, and career development.
- Conducted LinkedIn personal branding and professional networking sessions under **Startup Bootcamp** initiative.
- Delivered training workshops at **Bishop Jerome College, Kollam** and **LBS Women's College, Thiruvananthapuram**, empowering students with digital presence strategies.

Projects

RINK Technology Transfer Portal <i>Next.js, TypeScript, React, Gemini AI, Google Sheets API, AWS</i>	2026
• Developed Kerala Startup Mission’s official technology discovery platform with 200+ technologies from 20+ institutions. • Implemented AI-assisted search (Google Gemini API), ISR, advanced filtering, and Google Drive image integration.	
ORALINK – Tongue-Controlled Multi-Assistive Wheelchair <i>ESP32, Bluetooth HID, IoT</i>	2025
• Designed ESP32-based wheelchair control system using tongue-operated Bluetooth HID interface. • Integrated IoT home automation, health monitoring sensors, and emergency alert system for assistive mobility.	
Arogya DuoScan – Portable CKD Screening Device <i>ESP32-S3, NFC, Biosensors</i>	2025
• Built a reusable microalbumin-based urine testing platform for early Chronic Kidney Disease detection. • Implemented NFC-based patient identification and designed for low-cost, field-deployable preventive healthcare.	
StepVolt – Piezoelectric Energy Harvesting Smart Shoe <i>Embedded Systems, Wearables</i>	2025
• Developed wearable shoe prototype harvesting kinetic energy via piezoelectric modules with health monitoring and vibration therapy.	
Career After MBBS – IMA Official Website <i>Next.js, TypeScript, Tailwind CSS</i>	2025
• Developed official conclave website for Indian Medical Association (Parippally Branch) with registration platform, countdown timer, glassmorphism UI, and Apple-inspired responsive design.	

Achievements

- International Energy Festival Kerala 2026 – Project Expo Finalist AND Regional Winner organized by the CET Innovation Center in association with the APJAKTU NSS Energy Cell, and sponsored by the Energy Management Centre, Kerala.
- **Top 4 Finalist** – National Entrepreneurship Conclave, LEADS College of Management
- **LEAP 2025 Startup Pitch Finalist** – 3 Crore Startup Pitch Competition by Msigma Gokulam
- **Prototype 3.0 Winner** – Franklin Lectures project expo Competition
- Multiple **Inter-collegiate Ideathon Winner** across Kerala engineering institutions

Technical Skills

Programming	TypeScript, JavaScript, Python, Embedded C, HTML5, CSS3
Frameworks & Libraries	React, Next.js, Node.js, Tailwind CSS, Vite
Embedded & IoT	ESP32, ESP32-S3, Bluetooth HID, Wi-Fi, NFC, Motor Control, Sensors
Cloud & Backend	AWS, Firebase, REST APIs, Google Sheets API, Google Drive API
Engineering Tools	SolidWorks, AutoCAD, Mechanical Design, Rapid Prototyping
Dev Tools	Git, GitHub, Vercel, VS Code, Figma, Google Gemini API
Membership	IEEE Student Branch, ASME, BIS Club, NSS Volunteer
